

FOR NGOS, NON-PROFITS & COMMUNITY ORGANISATIONS

Bring emotional support to the communities who need it most.

Imotara's NGO Licensing gives registered non-profits deeply subsidised access to the same full-featured wellness companion used by paying corporates — so your beneficiaries get private, multi-lingual emotional support at a fraction of commercial cost. This guide explains what's included, how pricing works, and how it supports your grant and impact reporting.

● 60% self-serve NGO pricing

● Org admin dashboard

● Anonymised impact analytics

● 10–500 seat packs, no verification

● 22 languages supported

WHY EMOTIONAL SUPPORT MATTERS FOR UNDERSERVED COMMUNITIES

\$1T+

Flat self-serve discount for registered NGOs vs. commercial rate — no verification required

Imotara NGO pricing

What is Imotara?

Imotara is an AI-powered emotional wellness companion — a private, judgment-free space for people to process feelings, build daily emotional awareness, and get support in their own language and tone. Mood check-ins, a personalised companion persona, voice & text conversation, and gentle long-term memory — available on web, iOS and Android, with an offline mode that keeps core support working even without a reliable internet connection.

WHY NGOS CHOOSE IMOTARA

Reaches who outreach can't

Field workers can't be everywhere. Imotara is a private app on a beneficiary's own phone — available at 2am, in their own language, with no travel or waiting.

Privacy for vulnerable groups

For survivors of violence, at-risk youth, or marginalised communities, privacy isn't a nice-to-have — it's the reason they'll actually use it. No individual data is ever exposed to your organisation.

Built for grant reporting

Aggregate engagement data — never individual identities — gives your team defensible evidence of programme reach and usage for donors and grant renewals.

The full product, at a price built for your mission.

NGO Licensing gives every covered beneficiary or staff member the complete Pro-tier experience, with the same admin dashboard corporates use — priced through deep, verified subsidies rather than commercial rates.

SUBSIDISED PRICING

60% off commercial rate

Self-serve checkout, no verification required · Seat packs of 10 / 50 / 100 / 500 (custom quote above 500)

- ✓ Full Pro-tier features for every beneficiary
- ✓ Offline AI fallback (mobile, all languages)
- ✓ Monthly companion letter + mood timeline
- ✓ Org admin dashboard + member management
- ✓ Anonymised impact analytics (never individual data)
- ✓ API access for internal M&E systems
- ✓ Unlimited AI cloud conversations
- ✓ Unlimited chat history & cross-device sync
- ✓ Neural TTS voices in 22 languages
- ✓ Bulk CSV invite + real-time seat tracking
- ✓ Custom branding — logo, accent colour, brand name
- ✓ Full audit log with CSV export

YOUR ADMIN DASHBOARD — SIX MODULES, ONE LOGIN

Overview

Seats used vs. allocated, renewal date, tier badge, and weekly active beneficiary stat at a glance.

Members

Invite beneficiaries or field staff by email or CSV, manage roles, remove members, track seat use in real time.

Analytics

Aggregate engagement — weekly active users, average session duration, check-in rate — never individual identities.

Settings & Branding

Set your organisation's logo, accent colour and brand name so the experience feels like your own programme.

API Keys

Generate scoped API keys to pull aggregate stats or member lists into your own monitoring & evaluation systems.

Audit Log

Every invite, role change and seat change is logged, paginated, and exportable to CSV.

WHAT MAKES THE LICENCE EASY TO RUN

Fast field rollout

Bulk-invite entire cohorts via a single CSV upload — no manual account creation, ideal for large-scale field programmes.

No admin burden

A beneficiary's personal Imotara account (if they already have one) is never downgraded — your organisation's licence layers on top automatically.

Dedicated support

NGO accounts get a named point of contact for onboarding, renewals, and questions about verification or subsidy tiers.

See impact, **never** see identities.

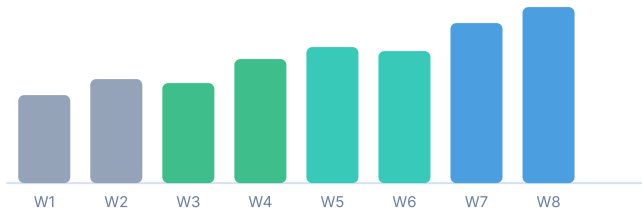

Every NGO licence includes an analytics tab built for donor and grant reporting — aggregate, anonymised, and export-ready. Below is a sample view of what your admin dashboard shows.

COST EFFICIENCY — REACHING MORE BENEFICIARIES PER RUPEE

Approximate annual cost per beneficiary

Illustrative — commercial Pro-tier vs. subsidised NGO rate (up to 80% off) vs. one in-person counselling session

*Illustrative example only — the self-serve NGO rate is a flat 60% off the commercial rate (10/50/100/500-seat packs, no verification required); larger deployments above 500 seats are quoted individually. Commercial Pro list price: ₹149/month (₹1,788/year). Counselling session cost reflects commonly reported urban India averages and varies widely by provider and region.

Why this matters for your programme

At subsidised NGO rates, a year of unlimited Imotara access for one beneficiary can cost a small fraction of a single in-person counselling session — letting limited grant budgets reach dramatically more people, in their own language, every day of the year.

INDIVIDUAL DATA
SHOWN TO YOUR
ORG

Built so you can report impact **without ever seeing it.**

NGO accounts are designed around one rule: your organisation gets proof the programme works, every beneficiary keeps their privacy completely intact — which matters most for the people you serve.

TRUST & DATA HANDLING

No individual data, ever

Org admins only ever see aggregate metrics — weekly active users, average session length, check-in rate. No conversation, mood entry, or identity is exposed at the organisation level.

Row-level access control

Database-level access rules ensure org admins and beneficiaries can only reach data scoped to their own organisation — enforced server-side, not just in the app.

Encrypted in transit

All traffic between the app, dashboard and servers is encrypted (TLS). Imotara never stores card or payment data.

Full audit trail

Every membership, invite and role change in your organisation is logged with timestamp and actor, viewable and exportable from the dashboard at any time.

Personal plans stay personal

If a beneficiary already has a personal Imotara subscription, it's never downgraded by your org licence — the higher tier always wins.

Privacy-by-design programme

Data handling practices are being formalised against GDPR and India's DPDP Act as part of an ongoing compliance programme; details available on request for NGO agreements.

HOW ONBOARDING WORKS

1

Apply

Share your NGO details, beneficiary count and programme goals — or skip straight to instant self-serve checkout for standard seat packs.

2

Quote

Standard seat packs (10/50/100/500) get the flat 60% rate immediately at checkout; larger or custom deployments receive a quote within 48 hours.

3

Org set up

We provision your organisation, seats, and admin dashboard access — typically within 24 hours of payment or approval.

4

Field rollout

Bulk-invite beneficiaries or staff via CSV or email; they accept and get full access instantly.

Ready to talk numbers? Here's how subsidised pricing works.

Standard seat packs are flat-rate, self-serve, and need no verification. Larger or bespoke deployments are quoted individually based on beneficiary count and programme scope.

SELF-SERVE SEAT PRICING — INSTANT, NO VERIFICATION

Seat pack	Billing term	Subsidy	Pricing model
10 seats	Annual	60% off commercial	Self-serve checkout
50 seats	Annual	60% off commercial	Self-serve checkout
100 seats	Annual	60% off commercial	Self-serve checkout
500 seats	Annual	60% off commercial	Self-serve checkout

LARGER DEPLOYMENTS — CUSTOM QUOTE

Seat pack	Billing term	Subsidy range	Pricing model
500+ seats	Annual	Negotiated, individually quoted	Custom quote — contact us
Custom / consortium	Annual / multi-year	Negotiated for NGO networks & coalitions	Custom quote — contact us

FREQUENTLY ASKED QUESTIONS

Q What proof of registration is needed?

No proof is required for standard self-serve seat packs (10–500) — the 60% NGO rate applies at checkout. For larger custom deployments, or if you'd like registration documentation (e.g. Section 8 / Trust / Society registration) on file for your own grant or donor reporting, our dashboard has an optional verification upload.

Q Can our team see what beneficiaries discuss?

No. Your admin dashboard only ever shows anonymised, aggregate data — never a single beneficiary's identity, mood entry, or conversation.

Q Can we use this for grant reporting?

Yes — aggregate engagement metrics (WAU, session duration, check-in rate) can support your grant and donor reporting today; a dedicated Impact PDF export is on our roadmap.

Q What if a beneficiary already uses Imotara personally?

Their personal licence is never downgraded. If your org's tier is higher, they enjoy those features while their membership with you is active.

Q How fast can we roll this out to the field?

Once your subsidy tier is confirmed, your organisation and seats are typically provisioned the same day. Bulk-invite via CSV gets your whole cohort onboarded quickly.

Q Do you support multiple regional languages?

Yes — 22 languages including Hindi, Bengali, Tamil, Telugu, Marathi and more, with gendered grammar handling and voice support, built for genuinely underserved communities.

Ready to bring Imotara to your community?

Share your registration details and beneficiary count — we'll respond with a subsidy tier and onboarding plan within 48 hours.
