HOW TOKENS WORK ACROSS PLANS

Scenario	Free Plan	Plus / Pro Plan	Tokens Needed?
Regular daily chat (under 20 messages)	✓ Free cloud AI	✓ Always included	No
Heavy usage day (20+ messages)	Falls back to offline AI → token deducted for each cloud message over limit	Unlimited — no tokens needed ever	Free: Yes · Plus/Pro: No
Offline AI replies	Always free, no tokens used	Always free, no tokens used	Never
No subscription, occasional use	Buy tokens → use as needed, no monthly commitment	N/A	Yes — pay-as-you-go
Token balance at 0 (Free)	Imotara falls back to offline AI — never hard blocks mid-conversation	N/A — always has cloud access	Optional refill

WHEN TO CHOOSE TOKENS VS SUBSCRIPTION

Choose Tokens if...
You use Imotara occasionally (a few days per week), don't want a recurring charge, or want to try cloud AI beyond the 20/day free limit without committing to a subscription. Tokens give full flexibility — spend only when you choose to.

Choose Plus / Pro if...
You chat with Imotara daily, want companion letters, full history, and cross-device sync without worrying about limits. At 20+ messages per week, Plus at ₹79/mo is far cheaper than buying equivalent tokens (250 tokens = ₹99, barely 12 days of heavy use).

Why Imotara offers subsidised pricing for NGOs

Mental health support reaches the people who need it most through NGOs — domestic violence survivors, rural youth, marginalised communities. Imotara's 11 Indian languages and offline AI capability make it uniquely suitable for outreach in underserved communities. NGOs with active programmes can apply for 50–80% subsidised pricing. Verified registration required. **Contact soumenroys@gmail.com with your organisation details and beneficiary count.**

ORGANISATION FAQ

Q What features do org members get?

All org members receive Pro-tier features (or Plus for EDU). They see an org tier badge in their Settings but otherwise use Imotara identically to a personal subscriber. Individual emotional data is never visible to org admins.

Q Can admins see what employees talk about?

Never. Org admins see only anonymised aggregate data — WAU trends, check-in rates, emotional themes at population level. No individual conversation, message, or identity is exposed to the organisation.

Q What happens if a member already has a personal plan?

Their personal license is never downgraded. If the org tier is lower, the personal plan takes precedence. If the org tier is higher, they enjoy the org's features while membership is active.

Q How do we onboard members?

Via the org admin dashboard at imotara.com/org/dashboard — invite by email or upload a CSV. Members receive an invite link; on acceptance, their Imotara account is automatically provisioned with the org's tier.
