

IMOTARA · INTERNAL SPECIFICATION

Imotara Connect

Human Consultancy Feature — Full Specification

A comprehensive proposal to extend Imotara's AI wellness platform with real-human consultancy — enabling verified human companions, wellness guides, and support figures to connect with users through structured, safe, and monetised sessions across web and mobile.

Proposal

PREPARED FOR

Imotara Team

CONTENTS

- 1 Executive Summary
- 2 Consultant Categories (12 Roles)
- 3 User Flows — Seeker & Provider Journeys
- 4 Feature List — All 10 Feature Groups
- 5 Revenue Model & Commission Structure
- 6 Proposed Architecture & Database Schema
- 7 API Design
- 8 Mobile App Additions
- 9 Safety, Compliance & Trust
- 10 Multilingual Support
- 11 Admin Panel — Gap Analysis & Required Enhancements
- 12 Implementation Phasing
- 13 Technology Decisions
- 14 Risks & Mitigations

Imotara currently provides AI/LLM-based emotional guidance and companionship. This document proposes **Imotara Connect** — a real-human consultancy layer that allows verified human consultants to provide audio and video-based emotional, relational, and wellness support to users across all languages and time zones.

This feature positions Imotara beyond a chatbot into a **full mental wellness ecosystem**: AI-first for everyday reflection, and human-first for deeper support moments. Both layers share the same user account, history, and settings.

CONSULTANT ROLES

12

Peer, family, wellness & yoga

PLATFORM COMMISSION

25%

Standard; 20% for top-rated

YR-1 REVENUE (OPT.)

₹2.87Cr

200 consultants, 60 sessions/mo

MVP TIMELINE

~5 mo

Phases 1–3 (booking + calls)

All 12 categories are **non-clinical** — peer support and wellness companionship, not licensed therapy. Prominent disclaimers required on all booking flows.

Male Friend

Peer-style emotional support. Casual, conversational, relatable.

Female Friend

Peer-style emotional support for users seeking feminine empathy.

Dad

Parental-figure guidance. Encouragement, life advice, stability.

Mom

Nurturing, warm parental support. Deep empathy and care.

Sister

Sibling-style empathy and honest perspective.

Brother

Brotherly support — grounded, practical, encouraging.

Male Wellness Companion

Structured emotional guidance with a wellness framework.

Female Wellness Companion

Structured emotional guidance with empathetic female presence.

Grandfather

Elder-wisdom, life experience, calm perspective.

Grandmother

Nurturing, story-based elder guidance and warmth.

Yoga Instructor

Mindfulness, breathwork, meditation-led sessions.

Physical Wellness Companion

Body-mind integration, fitness motivation, energy coaching.

3.1 User (Seeker) Journey

Browse Consultants

- Filter: category / language / rating / availability / gender
- View profile: photo, bio, expertise, languages, rates, reviews
- Choose session type: Audio or Audio+Video
- Check availability in own time zone
 - └─ Instant connect (consultant online now)
 - | → Send request → Consultant accepts (60s window)
 - | → Enter session immediately
 - └─ Schedule appointment
 - Pick slot → Pay → Confirmation email + push
 - Reminder (24h, 1h, 10min before)
 - Join at scheduled time
- Post-session: Rate + review + mood check-in
 - Optional: Rebook, Tip, AI reflection note

3.2 Consultant (Provider) Journey

Register as Consultant

- Fill profile: name, photo, categories, languages, rates, ID doc
- Set mode: Audio-only OR Audio+Video
- Set availability: weekly schedule + time zone
- Submit → Imotara Verification Review (2–5 business days)
- Approved → Go Online
 - └─ Accept live requests or manage upcoming bookings
 - └─ Conduct session via Imotara Call interface
 - └─ Post-session: Add private notes → Earnings credited (24h)
- Withdraw earnings: Bank / UPI / PayPal

4.1 Consultant Registration & Verification

FEATURE	DETAILS
Multi-step registration form	Name, display name, gender, photo, bio (multi-language), categories, languages, consultancy type, rate, time zone, weekly availability grid
Government ID verification	Upload Aadhaar / Passport / Driving Licence (encrypted Supabase Storage)
Self-declaration & Code of Conduct	Agreement to non-clinical role, prohibited behaviours, Imotara CoC
Training/certification badge	Optional upload of wellness, yoga, or counselling certificates
Video intro (optional)	60-second intro video on consultant profile
Background check consent	Consent for optional third-party background check
Annual re-verification	Reminder sent 30 days before annual expiry

4.2 Consultant Profile (Public)

FIELD	DESCRIPTION
Profile photo + verification badge	Green checkmark once ID verified by Imotara reviewer
Category badges	One or more of the 12 roles
Languages spoken	Multi-language tags; "Speaks your language" badge for matching
Session type indicator	Audio-only / Audio+Video
Bio	Up to 500 words; AI-translated to user's app language
Rating + review count	Aggregate star rating from all completed sessions
Sessions completed	Credibility signal (shown once above 10)
Response rate %	For instant request acceptance history

FIELD	DESCRIPTION
Next available slot	Shown in user's local time zone
Rate per session	Shown in user's local currency with conversion

4.3 Discovery & Matching

FILTER / FEATURE	DETAILS
Category filter	Browse all 12 categories
Language filter	Match consultants who speak user's language
Gender preference	Show only male / female / any
Rating filter	Minimum star threshold (e.g. 4.0+)
Availability filter	Online now / Today / This week
Session type filter	Audio-only / Audio+Video
Sort options	Highest rated, most sessions, lowest price, soonest available
AI Recommendations	Curated suggestions based on user's mood history and prior sessions
Featured consultants	Admin-promoted spotlight (paid listing slot)
Search	Free-text by name or keyword

4.4 Scheduling & Booking

FEATURE	DETAILS
Time zone auto-detection	Device time zone used; manual override available
Visual slot calendar	Week view showing consultant's open slots in user's time zone
Session duration options	30 min / 60 min (consultant configures)
Pre-session questionnaire	Optional 3 questions for consultant context
Booking confirmation	Email + push notification immediately on booking

FEATURE	DETAILS
Reminder notifications	24h, 1h, 10 min before session
Cancel / reschedule	Up to 24h before; cancellation policy enforced
Calendar export	Add to Google / Apple / Outlook via .ics
Waitlist	Join waitlist if preferred slot is taken

4.5 Live / Instant Session

FEATURE	DETAILS
Online indicator	Green dot on consultant card
Instant connect request	User sends request → consultant has 60 seconds to accept or decline
Auto-decline on timeout	Notifies user; suggests alternatives or booking
Session lobby	Waiting room screen with estimated wait time

4.6 Call / Session Interface

FEATURE	DETAILS
Audio call	WebRTC-based end-to-end encrypted audio
Video call (opt-in)	WebRTC video; consultant can disable camera
Session timer	Visible countdown to end of booked time
Session extension	+15 / +30 min with additional payment captured in-session
Text chat sidebar	Optional text fallback during call
Screen share	Yoga / Physical wellness consultants can share visual content
Virtual background	Blur or custom for consultant privacy
Emergency signal	Single-tap → shows regional crisis hotlines (iCall, 988, Samaritans)
Network quality indicator	Visible to both parties throughout session

FEATURE	DETAILS
Mobile-first layout	Optimised for iOS and Android; full Chrome/Safari/Firefox web support

4.7 Post-Session

FEATURE	DETAILS
Mood check-in	1–5 emoji scale immediately after session
Rating & review	Star rating + optional text; moderated before publish
Tip consultant	Optional additional tip amount
Rebook prompt	"Book your next session with [Name]?" CTA
Private reflection	User journal entry linked to this session in Imotara journal
Consultant private note	Visible only to consultant and admin; never to user

4.8 Consultant Dashboard

FEATURE	DETAILS
Earnings summary	Today / this week / month / all-time with platform fee breakdown
Upcoming sessions calendar	Week view of confirmed bookings
Session history	List of past sessions with ratings received
Availability management	Edit weekly schedule, block dates, add exceptions
Profile editor	Update bio, photo, categories, rate at any time
Withdrawal	Request payout to bank / UPI / PayPal once earnings available
Status toggle	Online / Busy / Offline instant switch

5.1 Commission Structure

REVENUE SOURCE	IMOTARA CUT	CONSULTANT RECEIVES	NOTES
Standard session	25%	75%	Base for all verified consultants
Premium session (4.7+ stars, 100+ sessions)	20%	80%	Loyalty reward for top performers
Featured listing	₹500/mo or \$6/mo flat	—	Paid by consultant for top-of-feed placement
Session extension fee	30%	70%	Impulse purchase; higher Imotara margin
Tip	10%	90%	Near-pass-through to reward consultant
Subscription credit bundles	40%	60% when redeemed	Pre-purchased credits sold to users

Rationale: 25% is the market-standard for service marketplaces (Fiverr, Uber range 20–30%). The 20% fast-track tier for high performers creates a quality incentive. Featured listings provide a separate B2B revenue line from consultants, not users.

5.2 Session Pricing Range (Suggested)

DURATION	INDIA (INR)	INTERNATIONAL (USD)
30 minutes	₹299 – ₹999	\$4 – \$12
60 minutes	₹499 – ₹1,999	\$6 – \$24
Extension (15 min add-on)	₹149 – ₹499	\$2 – \$6

5.3 Integration with Imotara Subscription Tiers

IMOTARA TIER	CONNECT BENEFIT
Free	Pay per session — no discount
Plus	5% discount on all sessions
Pro	2 free 30-min sessions per month included
Family	1 free session/month per family member (max 4)
Enterprise / EDU	Bulk session credits available via org admin dashboard

5.4 Year-1 Revenue Projections

METRIC	CONSERVATIVE	OPTIMISTIC
Active consultants	50	200
Avg sessions / consultant / month	30	60
Avg session revenue	₹599	₹799
Monthly GMV	₹8.99L	₹95.9L
Imotara monthly revenue (25%)	₹2.25L	₹23.9L
Annual Imotara revenue	₹26.9L	₹2.87 Cr

6.1 System Overview

6.2 Key Database Tables

CONSULTANTS

```

id                uuid PRIMARY KEY
user_id           uuid REFERENCES auth.users
display_name      text NOT NULL
bio               jsonb                -- {en: "...", hi: "...", bn: "..."}
  
```

```

photo_url      text
gender         text          -- male | female | non-binary
categories     text[]        -- ["mom","yoga_instructor",...]
languages      text[]        -- ISO codes ["en","hi","bn"]
session_type   text          -- audio | audio_video
rate_30min_paise int
rate_60min_paise int
timezone       text          -- "Asia/Kolkata"
status         text DEFAULT 'pending' -- pending|approved|suspended|rejected
is_online      boolean DEFAULT false
rating_avg     numeric(3,2)
sessions_completed int DEFAULT 0
featured       boolean DEFAULT false
created_at     timestampz DEFAULT now()

```

BOOKINGS

```

id             uuid PRIMARY KEY
user_id        uuid REFERENCES auth.users
consultant_id  uuid REFERENCES consultants
scheduled_at   timestampz NOT NULL      -- UTC
duration_minutes int DEFAULT 30
session_type   text
status         text DEFAULT 'pending'   -- pending|confirmed|active|completed|cancelled
payment_id     text                    -- Razorpay/Stripe ID
amount_paise   int
platform_fee_paise int
consultant_paise int
escrow_released boolean DEFAULT false
cancellation_reason text
created_at     timestampz DEFAULT now()

```

SESSIONS

```

id             uuid PRIMARY KEY
booking_id     uuid REFERENCES bookings
room_id        text                -- Daily.co / LiveKit room ID
started_at     timestampz
ended_at       timestampz
duration_actual_sec int
consultant_notes text              -- private, never shown to user
status         text DEFAULT 'waiting'

```

SESSION_REVIEWS

```
id          uuid PRIMARY KEY
session_id  uuid REFERENCES sessions
user_id     uuid REFERENCES auth.users
consultant_id uuid REFERENCES consultants
rating      int CHECK (rating BETWEEN 1 AND 5)
review_text text
is_approved boolean DEFAULT false  -- moderated before publish
mood_after  int CHECK (mood_after BETWEEN 1 AND 5)
tip_paise   int DEFAULT 0
created_at  timestamptz DEFAULT now()
```

6.3 Call Infrastructure Comparison

PROVIDER	PROS	CONS	COST
Daily.co ★ Recommended	Managed WebRTC, simple REST API, HIPAA-eligible	Per-minute pricing	~\$0.004/participant/min
LiveKit	Open-source, self-hostable, full control, cheaper at scale	More ops overhead	Server cost only
Agora	Popular in India, low latency	Proprietary, vendor lock-in	~\$0.0099/min
Jitsi	Free, open-source	Reliability concerns at scale	Free self-host

Recommendation: Start with **Daily.co** for zero-ops quick launch. Migrate to self-hosted **LiveKit** at scale (estimated crossover at ~20,000 minutes/month) for significant cost savings.

User-facing Endpoints

GET	/api/connect/consultants	-- browse with filters
GET	/api/connect/consultants/:id	-- public profile
GET	/api/connect/consultants/:id/slots	-- available time slots
POST	/api/connect/bookings	-- create booking + payment
GET	/api/connect/bookings	-- user's booking history
PATCH	/api/connect/bookings/:id/cancel	-- cancel booking
POST	/api/connect/calls/create-room	-- generate session room token
POST	/api/connect/reviews	-- submit post-session review

Consultant-facing Endpoints (requires consultant auth)

POST	/api/connect/consultant/register	-- submit registration
PATCH	/api/connect/consultant/profile	-- update profile
GET	/api/connect/consultant/bookings	-- upcoming bookings
PATCH	/api/connect/consultant/bookings/:id	-- accept/decline instant request
GET	/api/connect/consultant/availability	-- get weekly schedule
PUT	/api/connect/consultant/availability	-- update schedule
GET	/api/connect/consultant/earnings	-- earnings summary + breakdown
POST	/api/connect/consultant/payout	-- request withdrawal
PATCH	/api/connect/consultant/status	-- toggle online/offline

Admin Endpoints (extends existing /api/admin/ auth)

GET	/api/admin/connect/pending-verifications	-- reviewer queue
PATCH	/api/admin/connect/verify/:id	-- approve/reject/info-request
GET	/api/admin/connect/analytics	-- GMV, sessions, revenue
GET	/api/admin/connect/consultants	-- all consultants list
PATCH	/api/admin/connect/consultants/:id	-- suspend/feature/edit
GET	/api/admin/connect/sessions	-- session audit log
GET	/api/admin/connect/payouts	-- pending payout list
POST	/api/admin/connect/payouts/:id/process	-- mark payout done

SCREEN	DESCRIPTION
ConnectTab	New bottom-nav "Connect" tab — entry point to all consultancy features
BrowseConsultants	Category grid → filtered list → profile card
ConsultantProfile	Full profile, reviews, availability calendar, book/connect buttons
BookingFlow	Slot picker → pre-session questions → payment → confirmation
LiveSessionScreen	Full-screen call UI: audio/video controls, timer, chat sidebar, emergency button
SessionHistory	Past Connect sessions integrated into Imotara main history view
ConsultantDashboard	For users who are also registered consultants — earnings, bookings, status
ConsultantOnboarding	Multi-step registration flow with ID document upload

9.1 Non-Clinical Disclaimer

Shown prominently on every consultant profile and booking confirmation: *"Imotara Connect provides peer support and wellness companionship. Consultants are not licensed therapists or medical professionals. If you are in crisis, please contact a mental health helpline."*

9.2 Emergency Protocol

Single-tap "I need urgent help" button during any session. Immediately surfaces country-detected crisis lines:

COUNTRY	ORGANISATION	NUMBER
India	iCall / Vandrevala / Snehi	9152987821 / 1860-2662-345 / 044-24640050
USA	988 Suicide & Crisis Lifeline	988
UK	Samaritans	116 123
International	Findahelpline.com	Directory link

9.3 Code of Conduct

Consultants agree at registration to strict prohibitions: no romantic or sexual overtures, no clinical or medical advice, no financial solicitation. Violations follow a **three-strike policy**: warning → 30-day suspension → permanent ban.

9.4 Trust & Safety Metrics (Auto-monitored by Admin)

SIGNAL	THRESHOLD	ACTION
Low rating	Below 3.5 stars on 10+ sessions	Auto-flag for admin review
Session abandonment	Consultant abandonment rate > 20%	Flag for investigation
User reports	3+ reports within 30 days	Temporary suspension pending review

SIGNAL	THRESHOLD	ACTION
Emergency signal	Any trigger	Session logged; admin notified same day

9.5 Privacy & Data Protection

GDPR and DPDPA (India Digital Personal Data Protection Act) compliant. Session content not stored by default. ID documents stored in encrypted private Supabase bucket (AES-256), accessible only to verified admin reviewers via short-lived signed URLs. Retention: 7 years post-deletion for legal compliance.

10

Multilingual Support

All user-facing text is served through Imotara's existing i18n infrastructure. New additions required:

- Consultant bio: AI-assisted translation at registration time, stored as `jsonb {lang: "text"}`
- Booking confirmation emails in user's configured app language
- All 12 category names and descriptions translated across all supported languages
- "Speaks your language" badge when consultant's language matches user's app language
- Crisis hotline numbers localised by detected country

11.1 What the Current Admin Panel Covers

The existing `/admin` panel handles: super-admin login (email/password + legacy secret key), user license management (tier, status, expiry, token balance), organization management (create, edit, member management, license pools), blog comment moderation, and admin action audit trail.

Verdict: The current admin panel covers 0% of Imotara Connect requirements. It must be extended with 5 new tabs and the existing Moderation tab extended. The existing auth system, UI patterns (dark glass cards, table layout, action badges), and API conventions (Bearer token, PATCH with audit trail) are **fully reusable** — this is additive development, not a rebuild.

11.2 New Admin Tabs Required

TAB	KEY CAPABILITIES	CURRENT	NEEDED
A. Verifications	Pending application queue, view ID docs (signed URL), approve/reject/info-request, assign reviewer, verification audit trail	Missing	New tab
B. Consultants	List all consultants, edit profile fields, suspend/reinstate, feature/unfeature, view ratings/reviews, view earnings, manual payout override, safety flag	Missing	New tab
C. Sessions	All sessions list (filterable), session metadata, emergency signal log, dispute handling, manual refund issuance	Missing	New tab
D. Connect Analytics	GMV dashboard, Imotara revenue (platform fees), sessions chart, top consultants, category breakdown, cancellation rates	Missing	New tab
E. Payouts	Pending payout requests, mark as processed, payout history, tax withholding records, CSV export	Missing	New tab
Moderation (existing)	Extend blog comment moderation to also cover session review approval and user reports against consultants; three-strike tracking	Partial	Extend

1 Foundation

6–8 weeks

- DB schema (all tables)
- Consultant registration + ID upload
- Admin Verification Queue
- Consultant public profile page
- Browse & filter consultants

2 Booking & Payments

4–6 weeks

- Slot availability engine (tz conversion)
- Booking flow + Razorpay capture
- Escrow logic (24h release)
- Confirmation emails + push
- Cancellation & refund handling

3 Live Sessions

4–6 weeks

- Daily.co / LiveKit integration
- Call interface (web + mobile)
- Session timer + extension flow
- Emergency signal button
- Post-session review + mood check-in

4 Consultant Dashboard

3–4 weeks

- Earnings & payout management
- Availability management UI
- Profile editor
- Notification preferences
- Status toggle (online/busy/offline)

5 Admin Enhancements

3–4 weeks

- All 5 new admin tabs
- Moderation extensions
- Dispute handling tools
- Analytics dashboard
- Payout management

6 Growth & Optimisation

Ongoing

- AI-powered recommendations
- Subscription bundle integration
- Featured listing system
- Multi-language bio AI translation
- Review fraud detection

Total estimated time to MVP (Phases 1–3, live booking + calls): approximately 4–5 months with a focused 2-person engineering team.

CONCERN	DECISION	RATIONALE
Call infrastructure	Daily.co (launch) → LiveKit (scale)	Daily.co = zero ops to ship fast; LiveKit = cost savings at scale
Payments	Razorpay (India) + Stripe (global)	Existing Razorpay integration already in codebase
ID document storage	Supabase Storage (private bucket)	Already in stack; AES-256 at rest; signed URL access
Real-time presence (online indicator)	Supabase Realtime	Already in stack; PostgreSQL LISTEN/NOTIFY
Notifications	Existing SMTP + Expo Push	Both already operational; no new dependencies
Analytics	Supabase + custom SQL aggregation	No new tools needed
Scheduling / time zone	PostgreSQL time zone functions	Native, no external dependency
Bio translation	Existing i18n + AI-assisted at submission	Reuse existing translation infrastructure

RISK	SEVERITY	MITIGATION
Consultant quality issues	High	Rigorous verification + ratings system + three-strike policy
Boundary violations (romantic/sexual overtures)	High	Strict CoC at signup, in-session report button, session flagging on reports
Child safety	High	Age gate in account settings, parental consent toggle for users under 18
Clinical boundary (regulatory)	High	Non-clinical disclaimer everywhere; no mental health condition targeting in marketing
Consultant no-shows	Medium	Auto-refund policy; strike for no-shows; response rate publicly visible
WebRTC call quality	Medium	Network quality indicator; LiveKit fallback; escalation path to PSTN if needed
Consultant ID document breach	Medium	Encrypted private bucket; short-lived signed URLs; minimal access (reviewer only)
Payment fraud	Medium	Razorpay fraud detection built-in; manual admin review flagged above ₹10,000
