4 primary personas.
Real people, real pain points.

Each persona represents a distinct user segment — different motivations, languages, and life contexts. All united by one need: a calm, private space to feel heard.

- Urban Professional
- College Student
- Regional India
- Homemaker / Parent

Priya Sharma

Product Manager · EdTech Startup · Mumbai

📍 Andheri, Mumbai · 27 years · She/Her

Persona 1 — Urban Professional

" I know therapy would probably help, but ₹2,000 per session every week? I just can't. And who has time to book and commute? "

DEMOGRAPHICS

Age: 25–32	City tier: Tier 1 metro
Income: ₹8–18 LPA	Language: English / Hindi
Device: iPhone 13+	Uses app: Late night

PAIN POINTS

- High-pressure job, burnout is normalised in their circle
- Therapy is too expensive and logistically hard
- Can't talk to colleagues about mental health — stigma at work
- Feels guilty taking time for herself amid workload
- Journaling apps feel too clinical and transactional

TOP IMOTARA FEATURES

- 💬 Late-night AI chat — no judgement
- 📊 Monthly companion letter + emotion timeline
- 🎙️ Voice input when too tired to type
- 🔒 Privacy-first — no colleague can see
- 🧵 Multiple threads — separates work / personal

MESSAGE THAT RESONATES

"₹149/month. Less than one therapy copay. Available at 2 AM."

BEST CHANNELS

Instagram Reels · LinkedIn · Google UAC

Arjun Mehta

B.Tech 2nd Year · NIT Delhi · Away from Home for First Time

📍 Delhi (from Jaipur) · 20 years · He/Him

Persona 2 — College Student

" I miss home more than I expected. I can't tell my parents — they'll worry. And talking to friends about feelings just feels... awkward. "

DEMOGRAPHICS

Age: 18–23	City tier: Studying Tier 1
Income: ₹0–2k pocket money	Language: Hindi / English
Device: Android mid-range	Uses app: Night, in hostel

PAIN POINTS

- Homesickness, academic pressure, first heartbreak — all at once
- No safe space to talk — peers mock vulnerability
- Campus counselling has long wait times and feels formal
- Can't afford any paid therapy or app subscription
- Poor hostel internet — needs offline support

TOP IMOTARA FEATURES

- 📡 Offline AI — works on patchy hostel Wi-Fi
- 🌱 Free tier — 20 msgs/day is enough for daily check-in
- 🤷 Companion feels like a non-judgemental friend
- 🌬️ Breathing modal for exam anxiety
- 🔥 Streak — daily habit that builds self-awareness

MESSAGE THAT RESONATES

"Free. Private. Always there. Even at 3 AM in your hostel room."

BEST CHANNELS

YouTube Pre-roll · Instagram Stories · College Communities

Sunita Devi

Primary School Teacher · Government School · Patna, Bihar

📍 Patna · 34 years · She/Her · Married, 2 children

Persona 3 — Regional India

" कोई मेरी बात नहीं सुनता। घर में तो हमेशा किसी का काम होता है। अपने लिए एक पल भी नहीं। (Nobody listens to me. At home it's always someone else's needs. Not a moment for myself.) "

DEMOGRAPHICS

Age 28–42	City tier Tier 2 / 3
Income ₹2–5 LPA household	Language Hindi (primary)
Device Android budget phone	Uses app Morning / after school

PAIN POINTS

- No mental health services exist in her city — nearest counsellor is in a different district
- Uncomfortable discussing emotional struggles in English
- Stigma around mental health — family would not understand therapy
- Internet is 3G / intermittent — apps must work offline
- Very low disposable income — free tier is critical to adoption

TOP IMOTARA FEATURES

- 🌍 Full Hindi AI — feels natural, not translated
- 📡 Offline AI — works without 4G
- 🎙️ Voice input — speaks Hindi, AI understands
- 🔒 Private — no one in family can see
- 🌱 Free tier — zero cost barrier

MESSAGE THAT RESONATES

"अपनी भाषा में, अपनी मर्ज़ी से — कोई judgement नहीं। "

(In your language, on your terms — no judgement.)

Kavitha Nair

Homemaker + Part-time Freelance Designer · Bengaluru

📍 Bengaluru · 39 years · She/Her · Married, twins (age 7)

Persona 4 — Homemaker / Parent

" Everyone asks how the kids are. No one asks how I am. I've forgotten who I was before becoming "Amma". I need somewhere that's just mine. "

DEMOGRAPHICS

Age 33–50	City tier Tier 1 / 2
Income Household ₹10–20 LPA	Language Malayalam / English
Device Android flagship / iPhone	Uses app After children sleep

PAIN POINTS

- "Invisible load" of parenting — emotional exhaustion unrecognised by family
- Identity loss — was a professional, now primarily a caregiver
- No peer group that understands (friends are also busy parents)
- Therapists in her area don't speak Malayalam
- Feels guilty spending money on herself when family needs come first

TOP IMOTARA FEATURES

- 🌏 Malayalam AI — mother tongue support is rare
- 💌 Monthly letter — feels seen and remembered
- 📊 Emotion timeline — tracks mood patterns over months
- ✉️ Future letters — writes to herself for the future
- 🤝 Companion persona — sets it up as an elder sister

MESSAGE THAT RESONATES

"You take care of everyone. Let someone take care of you — even for 10 minutes a day."

CHANNEL GUIDE — WHERE TO FIND EACH PERSONA

👩‍💼 Reaching Priya (Urban Professional)

Lives on Instagram, LinkedIn, and Spotify. Skips ads but watches Reels. High willingness to pay.

Instagram	Reels format: "Things no one tells you about burnout" — value-first, soft CTA at end
LinkedIn	Thought-leadership posts on workplace mental health. Target HR decision-makers for org licensing.
Google Search	Keywords: "therapy alternative India", "mental health app India", "burnout support app"
Spotify / Podcast	Mid-roll ads on mental health and productivity podcasts in English

👨‍🎓 Reaching Arjun (College Student)

YouTube, Instagram, Discord. Strong referral potential within hostel/college networks. Price-sensitive.

YouTube	Pre-roll on study videos, JEE/competitive exam channels. Show the free tier prominently.
Instagram Stories	Relatable memes + mental health awareness content in Hindi-English mix
College tie-ups	Partner with DUSU, IIT/NIT student wellness boards. Bulk free access for campus wellness weeks.
WhatsApp / Discord	Peer-to-peer referral — "my friend uses it" is the strongest conversion trigger for this age group

🙍 Reaching Sunita (Regional India)

Facebook, YouTube (Hindi), WhatsApp. Low tech-confidence. Needs word-of-mouth trust before downloading.

YouTube Hindi	Videos titled "मन की बात app से करें" — Hindi explainer of Imotara in 60 seconds
Facebook Groups	Women's groups, teacher communities, parent groups — share helpful mental health content
WhatsApp Forward	Design shareable infographic: "Hindi mein apni baat karo" with Play Store link
NGO partnerships	Bulk onboarding through women's welfare NGOs in Tier 2/3 cities

👩‍👦 Reaching Kavitha (Homemaker/Parent)

Instagram (parenting pages), Pinterest, YouTube cooking/lifestyle, WhatsApp mom groups. High emotional resonance.

Instagram	Parenting + self-care crossover content. "It's okay to not be okay as a parent" — soft emotional hooks
WhatsApp Mom Groups	Refer-a-friend campaign: "A quiet 10 minutes just for you" — share a free month upgrade code
YouTube	Pre-roll on Malayalam/Kannada lifestyle channels. Language-specific ads perform far better here.
Meta Ads	Target: 30–45, married women, Tier 1/2 cities, interested in parenting + wellness + self-care

STRATEGIC INSIGHTS FOR THE MARKETING TEAM

🔑 The free tier is the growth engine

Personas 2 and 3 (Arjun, Sunita) will never pay upfront. Lead every campaign with "Free — no credit card" and let the product convert them. Paid campaigns should target Personas 1 and 4 who have higher willingness to pay.

🌏 Language is the unlock for scale

All 4 personas are poorly served by English-only wellness apps. Lead every Hindi, Bengali, Tamil, Malayalam campaign with the language angle — it's the single most differentiating claim Imotara has that no competitor can match.

🔒 Never mention the AI first

None of these 4 personas care about the AI technology. They care about feeling heard, private, and supported. Lead with the emotional outcome ("someone who listens") and mention AI only as a trust signal ("secure, private, never shared").

📱 Mobile-first, always

All 4 personas use smartphones as their primary device. Design all content for vertical video and mobile screens. The web app is secondary — it's for the 5% who find Imotara via Google. 95% of organic growth will come through app stores and mobile social.
