22

Languages supported, including 11+ Indian languages — true reach for diverse teams

Product capability

What is Imotara?

Imotara is an AI-powered emotional wellness companion — a private, judgment-free space where people can process feelings, build daily emotional awareness, and get support in their own language and tone. It combines mood check-ins, a personalised companion persona, voice & text conversation, and gentle long-term memory — available on web, iOS and Android, with an offline mode that keeps core support working even without internet.

WHY ORGANISATIONS CHOOSE IMOTARA OVER GENERIC EAPS

Truly private, always used

Traditional Employee Assistance Programmes suffer from low utilisation — employees fear being seen calling a hotline. Imotara is a private app on their own phone, used on their own time.

Meets people in their language

Support in Hindi, Bengali, Tamil, Telugu and more — not just English. This matters for blue-collar, frontline and multi-lingual workforces that most wellness benefits ignore.

Visibility without violation

HR sees aggregate engagement trends to prove programme value — never a single employee's conversation, mood entry, or identity.

One licence, every feature, every employee.

Corporate Licensing is a single bulk-seat agreement that gives every covered employee our full individual Pro-tier experience, plus a dedicated admin dashboard for your HR or People Ops team.

- ✓ Unlimited chat history & cross-device sync
- ✓ Neural TTS voices in 22 languages
- ✓ Bulk CSV invite + real-time seat tracking
- ✓ Custom branding — logo, accent colour, brand name
- ✓ Full audit log with CSV export

YOUR ADMIN DASHBOARD — SIX MODULES, ONE LOGIN

Overview

Seats used vs. purchased, renewal date, tier badge, and weekly active user stat at a glance.

Members

Invite by email or CSV, manage roles, remove members, track seat availability in real time.

Analytics

Aggregate engagement trends — weekly active users, average session duration, check-in rate — never individual data.

Settings & Branding

Set your organisation's logo, accent colour and brand name for a tailored employee experience.

API Keys

Generate scoped API keys to pull aggregate stats or member lists into your own HR systems.

Audit Log

Every invite, role change and seat change is logged, paginated, and exportable to CSV.

WHAT MAKES THE LICENCE EASY TO RUN

Fast onboarding

Bulk-invite your whole team via a single CSV upload — no manual account creation, no IT ticket queue.

No admin burden

A member's personal Imotara account (if they already have one) is never downgraded — the org licence layers on top automatically.

Dedicated support

Corporate accounts get a named point of contact for onboarding, renewals, and any account-level questions.

See engagement, **never** see identities.

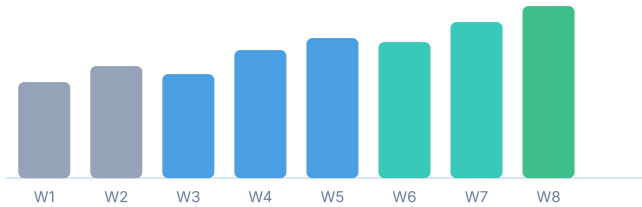

Every Corporate licence includes an analytics tab built for HR reporting — aggregate, anonymised, and export-ready. Below is a sample view of what your admin dashboard shows.

COST COMPARISON — IMOTARA VS. ONE THERAPY SESSION

Approximate annual cost per person

Based on Imotara's published Pro-tier pricing vs. reported average cost of a single in-person therapy session in India

Illustrative comparison. Imotara Pro list price: ₹149/month (₹1,788/year). Single-session therapy cost range reflects commonly reported urban India averages and varies by provider, city and specialisation. Corporate seat pricing is custom and quoted separately per organisation.

Why this matters for your budget

A year of unlimited Imotara Pro access costs roughly the same as **one** in-person therapy session — for **every** employee, every day of the year. It's a low-cost, high-reach layer that complements (not replaces) clinical care and existing EAP benefits.

INDIVIDUAL DATA
SHOWN TO HR

Built so HR can report on wellbeing **without seeing it.**

Corporate accounts are designed around one rule: organisations get proof the programme works, employees keep their privacy completely intact.

TRUST & DATA HANDLING

No individual data, ever

Org admins only ever see aggregate metrics — weekly active users, average session length, check-in rate. No conversation, mood entry, or identity is exposed at the organisation level.

Row-level access control

Database-level access rules ensure org admins and members can only reach data scoped to their own organisation — enforced server-side, not just in the app.

Encrypted in transit

All traffic between the app, dashboard and servers is encrypted (TLS). Payment details are handled by certified payment processors — Imotara never stores card data.

Full audit trail

Every membership, invite and role change in your organisation is logged with timestamp and actor, viewable and exportable from the dashboard at any time.

Personal plans stay personal

If an employee already has a personal Imotara subscription, it's never downgraded by the org licence — the higher tier always wins.

Privacy-by-design programme

Data handling practices are being formalised against GDPR and India's DPDP Act as part of an ongoing compliance programme; details available on request for enterprise agreements.

HOW ONBOARDING WORKS

1

Contact sales

Tell us your headcount, industry and goals for the programme.

2

Custom quote

Receive a tailored per-seat quote within 48 hours, based on seat count and billing term.

3

Org set up

We provision your organisation, seats, and admin dashboard access — usually same day.

4

Team onboarding

Bulk-invite employees via CSV or email; they accept and get full access instantly.

FREQUENTLY ASKED QUESTIONS

Q What features do employees actually get?

Every covered employee receives the full individual Pro-tier experience — unlimited AI conversations, unlimited history, neural voice, mood timeline, companion letters, and cross-device sync. They see an org badge in Settings, but the app looks and works the same as a personal subscription.

Q Can our HR team see what employees discuss?

No. HR only ever sees anonymised, aggregate data — trends across the whole organisation, never a single employee's identity, mood entry, or conversation. This is enforced at the database level, not just hidden in the interface.

Q How fast can we roll this out?

Once your quote is confirmed, your organisation and seats are typically provisioned the same day. Employees are invited via a single email or CSV upload and get access as soon as they accept.

Q What if an employee leaves the company?

Removing a member from the dashboard immediately revokes their org-provided access and frees up the seat for reassignment. If they had a personal subscription beforehand, that continues unaffected.

Q Do you support non-English speaking teams?

Yes — 22 languages including Hindi, Bengali, Tamil, Telugu, Marathi and more, with gendered grammar handling and voice support, making Imotara genuinely usable across frontline and multi-lingual workforces.

Q Can we integrate this with our own HR systems?

Yes — Corporate accounts can generate scoped API keys to pull aggregate usage stats and member lists into internal HR or analytics tools.

Ready to bring Imotara to your organisation?

Share your headcount and goals — we'll respond with a custom quote and onboarding plan within 48 hours.
