HOW TO GET STARTED IN 3 STEPS

01

Download & Install

Scan the QR code above or search "Imotara" in the App Store / Google Play. On web, simply open imotara.com in any browser — no install needed.

02

Set Up Your Companion

Choose your preferred language, name your companion, set the relationship vibe (Friend / Mentor / Coach) and response style. Takes under 2 minutes.

03

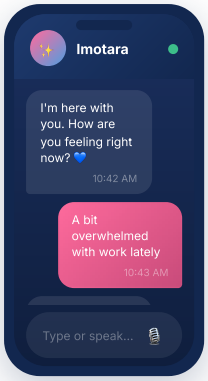

Start Your First Conversation

Tell Imotara how you're feeling today. No sign-up required on first use. Create an account whenever you're ready to sync across devices or unlock Plus features.

5 key screens — beautiful, calm, and intuitive

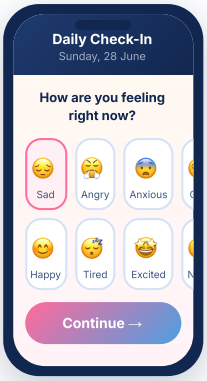

iOS & Android · Dark-theme AI chat · Mood tracking · Companion persona · History analytics · Settings

MOBILE APP SCREENS (IOS & ANDROID)

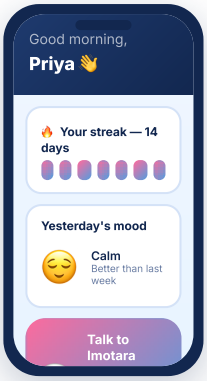

AI CHAT

Emotionally aware conversation with typing & voice input

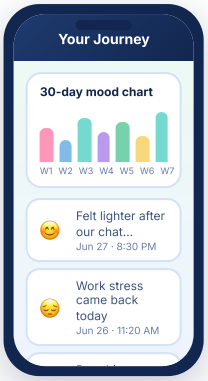

MOOD CHECK-IN

8 emotion states, daily tracking

HOME DASHBOARD

Streak tracking, mood recap, quick-start chat

HISTORY

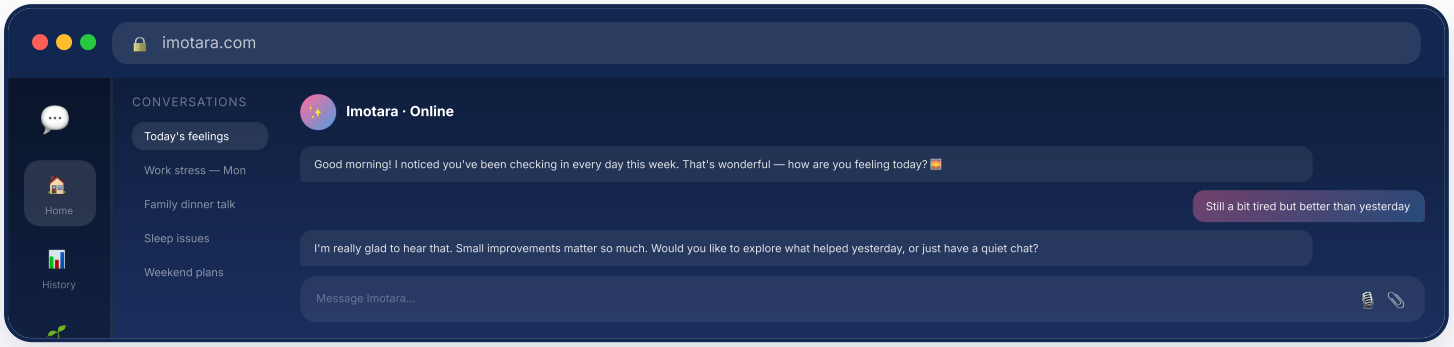

Mood charts, emotion timeline, journal entries

COMPANION SETTINGS

Name, vibe, language, tone, reminders

WEB APP — IMOTARA.COM

Note for the marketing team

These are illustrated screen mockups for planning purposes. For actual app store submissions, social media posts, and press kits, **real device screenshots** should be captured from the live app and exported at full resolution (1290×2796px for iOS, 1080×1920px for Android). The P1 marketing task includes adding text-overlay screenshots — coordinate with the developer to schedule a screenshot session on iPhone 15 Pro and a Pixel 8.

Mobile vs Web — feature highlights by platform

Both platforms share the core AI experience. Mobile adds offline AI and native features; Web adds multi-thread management and richer history tools.

PLATFORM FEATURE HIGHLIGHTS

iOS & Android — Mobile

- ✓ **Offline AI fallback** — works without internet in all 22 languages
- ✓ Guided breathing modal triggered from chat
- ✓ Daily streak counter with visual progress ring
- ✓ 30-day mood line chart + 12-week emotion heatmap
- ✓ Emotion Radar Chart (6-axis personality view)
- ✓ Future letters — write to your future self, timed unlock
- ✓ Cultural stories, mythology, wisdom quotes
- ✓ Inactivity nudge push notification after 48h silence
- ✓ First-chat 3-question intake arc (onboarding)
- ✓ Razorpay UPI + Apple In-App Purchase
- ✓ Age-based companion avatars

🌐 Web App — imotara.com

- ✓ **Streaming replies** — AI tokens appear word by word
- ✓ Multi-thread panel — unlimited named conversation threads
- ✓ Cross-thread memory — AI aware of past thread topics
- ✓ Conflict detection — spots contradictions with prior statements
- ✓ On This Day — surfaces a matching journal entry from 1 year ago
- ✓ Tone reflection card (post-session emotion summary)
- ✓ Emotion timeline + filter bar in History
- ✓ Data export — JSON and CSV of full history
- ✓ Reply origin badge (cloud vs offline AI indicator)
- ✓ Reflect page — guided journaling prompts
- ✓ Full admin panel at /admin (internal)
